Carbon Emission Calculator and Offset Solution

This tool calculates the carbon footprint of your delivery and provides you with the resources to offset it by directly connecting with deserving and innovative projects in Africa.

[Get Started >](#)

How it works:

- ✓ Enter your details & those of your supplier or client
- ✓ Enter the shipping details of your order (we currently only calculate for air-freight)
- ✓ Our tool estimates the carbon emission from the airfreight component of your delivery
- ✓ Choose an offset project from our list of partners
- ✓ Pay for your offset online
- ✓ Receive a certificate of your contribution and details of your delivery's emission
